

PARTNER WANTED TO DEVELOP A TOURIST RELATED FACILITY

We are looking for partner to develop this prime location to cater tourists for a short and long stay plus a facility to offer other tourist related services.

This estate is very exclusive, quiet, vast forest view yet within walking distance to provincial capital where all things are available.

This roughly 10 hectares estate is ready for immediate development; road running in front of the property is soon to be paved while public electric grid is ready for connection, about two kilometers away from Central Town Sen Monorom, Mondulakiri province which offers all seasons cool climate with vast forest, 900 meters above sea level. To find out exactly where it is, here is its coordinates: 12°8'33.04"N, 107°10'7.14"E. This province is about 370 kilometers from Phnom Penh and it borders to Vietnam.
